IMPORTANT: attendees must pre-register & receive a security clearance in advance through the Pima Air Museum for this tour. Security clearances are verified by Davis-Monthan AFB from info on your online Registration. Given security issues with base access & our desire to make access as smooth as possible, we hired buses to go between the DoubleTree & Boneyard-Pima Museum. The buses load 0830 at the Hotel & go to the Boneyard then Pima Air & Space Museum. At 1530, buses pick up everyone from the Museum & return us to the Hotel. Price is \$45 per person, which includes round-trip bus, Boneyard tour, & Pima Museum Admission.

Our buses are the **'only'** method to access the Boneyard. Even with a military ID, you cannot tour the Boneyard on your own - tours can only be done through the Pima Air Museum with advance security clearance. Also, you must have your driver's license with you for access (your military ID will not be accepted). The cut-off date to Register for this Tour is **Sept 9, 2018** to coordinate base access. **NOTE: we need your Driver's License, Social Security, & birth date info to meet the security access requirements for this tour.** To keep your info secure, we use a separate, secure Registration form. On the Upcoming Reunion web page, a 2nd page is visible to the right that

looks like this:

You must complete the ***Boneyard Tour Required Info*** form to

go on this Tour. **NOTE:** your secure info is not visible or accessible to anyone except our Reunion Coordinator. And, FYI, Ev uses your email info to send you a confirmation of your place on a specific tour after he processes your registration & payment. He uses your cell phone info to contact you as needed.

Sunday Afternoon, October 14, 2018 Sabino Canyon TOUR

Experience the beauty of one of the most unique Southwestern desert canyons on a Sabino Canyon tram ride. Sabino Canyon is a natural desert oasis located in Tucson's Coronado National Forest & is home to spectacular desert landscapes & abundant wildlife. Sabino Canyon's history is as diverse as it is fascinating. The Santa Catalina mountain range began its formation over 12 million years ago, 7 million years before the earliest known human being walked the face of the earth. In around 5 million B.C., the mountains ceased formation around the Tucson area, setting the stage for future ecological action. Plant life first appeared between 6,000 & 8,000 years ago, & some of the earliest predominant human occupants of Sabino Canyon were the Hohokam people. An earthquake centered in northern Mexico in 1887 dislodged an array of massive boulders lining the canyon walls,

which crashed down & came to rest in the valley below. In 1905, the Forest Service was first created & began overseeing Sabino Canyon & during the Great Depression, the bridges over Sabino Creek & the Sabino Dam were constructed by the Works Progress Administration & Civilian Conservation Corp. The first trams in Sabino Canyon began operating in October, 1978. From that point on, access to cars was restricted to allow visitors to reach Upper Sabino Canyon by foot, bicycle or tram. Sabino Canyon Tours was founded in May, 1985 & provides young & older visitors alike with the opportunity to experience the exquisite beauty of Sabino Canyon. You can learn more at their web site: <http://www.sabinocanyon.com/> Reunion coordinator Ev Sprouss visited the location & scoped-it-out for us. Beautiful pictures are posted on the Association's Facebook page. Price is \$32 per person for round-trip Bus transportation to/from the Double Tree Hotel & the Museum admission; **cut-off date to register for this Tour is September 9, 2018.**

Final timing is yet to be determined but it will be a late morning/early afternoon tour.
