

Wayne reported on Marshall Mullin's BLOG and how well they are dealing with a serious medical situation.

Power Issues: At the field, a replacement transmitter is on order and ready for installation at Field C3. Location: North of Niceville off FL285, 3 mi from College Blvd. A MAP will be available, re-printed by Wayne, sent by Rob.. Planned to caravan in car-pools. Lee K may have a formalized "schedule" on how this even will occur. The 18th will provide PA system via Dan Sperlock (Gunner) will co-ordinate with PA. Local Paper and TV is invited. Great to have the media on Monday's presentation to the 18th. Col H. will suggest to Dan. Ben Reeves on 18th will help with setting up a Velcro aerial camera, mounted on our stinger model, to capture AC view of the flight. Pyrotechnics is unlikely at C3, but not a hard NO yet. Rob may do a rocket launch event.

We really need to have the AV rep. from the 18th meet up with JP to get captured video transfer coordinated.

Holley Field is NOT available, even with a significant effort. Very frustrating – w/o an "insider" to champion the affair. Too bad, but C3 will be very workable.

Doug tried Gus on cell, and Wayne tries Col. H on other line.

Total registered attendees expected = 196. Good turn-out.

How many will be going to the 18th – maybe close to 100 (Good SWAG).

One hang-up being worked is the transportation (buses) – only two available – 60 total per trip. Our car pool plan may work with those attendees with retired Ids.

IMPORTANT: Names/addresses of attendees must be submitted to Security ASAP. Doug will submit spreadsheet list of 196 attendees via Tony P and Gus to Col Heubert, and include column for Driver Lic ID. Send existing list NOW, and those w/o valid ID can be dropped later.

There is concern for wheel-chair access, check with Chief Posey re: Cindy.

Wayne will print poster size sign up/car pool posters for the hooch.

\$5 "contribution/donation" will be on the poster to help support the lunch affair – pitch the sawbuck into the bucket.

The agenda includes 45 min self-tour time of refreshed AirPark – to include a short memorial service.

Wayne will print small size event agenda for the attendee package.

VA will do a presentation on Sat.

Both Shadow and Stinger Ascots will be shown and tested by lucky recipients at the reunion.

Fletche's ACA article is "a go." Great job doc.

Reunion Flashes are going out, but not positive if every POC did it.

10 newbie's (first time attendees) should be escorted by similar crew/ position squadron --- experience reunion volunteers needed. Doug and Wayne will co-ordinate that.

Roger/Ron withdrawn Wash DC for 2014 reunion– liability issues as presented by a third party organizer scared them off. No surprise to existing Board members. Maybe the location in DC adds a level of risk in this regard.

Alts are from Col. Mac : 73rd at Cannon or 71st at Kirkland.

Coordinators for the San Antonio Reunion 2013 will provide a package

NEXT Teleconf – once more before reunion – **Tue. Sept. 18th same time.**

Mike will send announcement.. Focus on AirShow and 18th visit agenda. **END**
