Thank you Wayne.

Well done (I did not print the orig '09 version to see the lines) Mike

I like it, the version Wayne submitted without the lines around the Association patch looks much better.. Thanks, Terry

Not sure what Tony's looked like.

The updated 2009 version is good except when you print it, some of the lines show around the Association patch & banner.

Here's the updated 2009 version that I fixed so it doesn't show the lines when you print it. Not sure if it has the a problem of eating toner or not.

When you decide the final version, I'll post it on the web & put the old ones in a folder titled "Old Letterheads" :>) Thanks! Wayne

Hoping your new year launches in health, happiness and prosperity.

I compared the letterhead that I had from Tony Pakatewski, and the 2009 version on the new web site.

The 2009 version does NOT have Tony's graphic background, that avoids eating into your toner/ink every page you print.

The 09 version was updated and renamed for 2016, attached.

Please review and comment as necessary.

Thanks.

Mike
